What Social Credit Is

(Contributed by Grande Prairie Social Credit Group)

Social Credit merely is the power to monetize Real Wealth, and the power to monetize Real Wealth is the power to credit, and if that power is given to another Country and help make known this northern inland empire's many advantages, then it is Social Credit.

Social Credit is a method for the full distribution of the goods and services that may be produced in Canada. It is the solution of the problem in which most men and women live, to state it while thousands are in need of food, clothing and shelter.

The problem of production has been solved, but the people cannot buy the goods produced because they lack money. Major Douglas explains that the cause of this is that the purchasing power is insufficient to buy its total output.

This shortage of purchasing power is a permanent defect in our present banking system and persists whatever the volume of production.

Modern money is controlled by the private banking system, which creates and destroys money according to unregulated principles. Money has no value in itself and the quantity should not be based on any scientific or rational basis for a scientific money system in an age of power, technical efficiency and physical plenty depends upon the amount at which the nation supply itself with the goods and services needed and wanted by its citizens. What is needed is a supply of money from the nation to meet its needs in its income correlated with the supply of goods and services which the nation can produce.

A scientific solution consists of three inseparable features. The establishment of an accurate bookkeeping department which would institute a National Credit Account.

The amount could be credited with the production of wanted goods and services and debited with non-consumption. (The cost of production is consumption.) The amount could then be doleable now.

As guardian of the welfare of the people, the government assumes the duty of assuring that buying power is available daily which would mean at 45 cents per hour a production of 270,000 gallons per day, and per year of 98,555,000 gallons.

Household production would have to be sufficient to meet several times in one year the gas requirements of the home alone.

As we have said above the annual consumption for Alberta is about 10 million gallons.

Now, assuming that the requirements of the house keeper are for 40,000,000 gallons per year, at a net profit of 2 cents a gallon our government would have full control, the cost of which would be less than one-half of the annual revenue of this project.

And we are looking for some social credit to fill the gap!

A. C. LA RIVIERE

If the Douglas analysis is right, only Social Credit will provide a remedy for our economic ills. Social Credit is the answer—doles abolish poverty. It will enable us to produce to the limit of our capacity and consume products to the limit of our wants, and best of all it accomplishes this, not by regimenting individuals under state control, nor by coercing them through military dictatorship, but by leaving them free from any economic restraint.

The meeting was covered elsewhere in this issue. I will pass on to the little incident which occurred during the afternoon when the question of supporting the Monkman Pass Highway was raised.

Tom Corlett of the Clairmont district, who was elected to represent his division on the council, seemed a bit apathetic to the question. Now it so happens that he still has a son in the King's Navy, by his broad acres, which he has ruled single-handed for many years. I went over to him and told him the information to The Tribune's information, when the highway is completed it will be the most attractive and beautiful highway in the entire country.

Tom smiled as only Tom can and he made the following remark with considerable enthusiasm: "J. B. from now on you can call me Tom. I am for the Monkman Pass Highway, and just watch me put my shoulder to the wheel." The reader can put his or her own interpretation on that.

The return journey to the school was made without mishap. Here the car met us right on the dot and we proceeded home. In like hours, but what it costs to get home, the ground when condition of the roads permit, the car is in a class by itself.

We regretted that the Bill would not pass, but we were told Bill would as had been our custom, get some hot milk to warm us up.

Betty, you are a splendid, courageous girl, and I like you, but I am tickled to death that your dream did come true.

INDIAN KILLS HIS BROTHER

In search for a story for this column, I called to see my friend, George Russell, who is a writer and thus pertaining to Denver, North. I told him I wanted something different, something out of the commonplace.

George, not his chair closer, adjusted his glasses and said: "Well, I'll give you a true story, which has never been in print."

Thus two years ago I was buying furs at Athabasca when a very old Indian came in with a bunch of fur from Baptiste Lake west of Athabasca. He was a chief and very superstitious. Handing over his fur, the Indian remarked that he would have done much better had it not been for the trouble given him by his brother.

"I said, 'You have no brother.'

"We, the two, were talking, and George, who is a writer, began to say that the Indian explained that the brother was a big, Wolverine, which had been robbing his traps and giving him a hard time. I said, 'I'm sorry, but I must tell you, your brother with my little axe and he is dead.'

Mr. Russell asked him what he did with the brother. He said it was worth \$10 or seven dollars. The Indian said, "Sorry, but he left him in the trap and never touched his brother."

George, for many stated that the wolverine is the most destructive and smartest animal known. Not only does it play havoc with trap lines, destroying the animals caught, but it is ex-

tory, Fairborough, White reorganizing the working of the Fairborough factors during the winter. Mr. W. H. Ryley, a man with a good knowledge of accounting, Major Douglas' curiosity was aroused by his observation that the cost of construction in the town was greater than the sum paid out for wages, salaries and dividends in that week. If this were true, as presumably it must be, for the account of the new plant, it would surely invalidate the theory upon which our whole financial system was supposed to work—that the purchasing power of the nation was greater than the sum paid out for wages, salaries and dividends in that week.

Major Douglas proceeded to collect information from over a hundred firms in the town and found that in every case the total costs incurred in every week were greater than the sum paid out for wages, salaries and dividends, except in businesses heading for bankruptcy.

He then advised his conclusions in an article in the English Review in which he pointed out that there was a system of accountancy which renders the delivery of the nation's goods and services to itself a technical impossibility.

Major Douglas' article, "The Social Credit Movement," was endorsed by this article grew the Social Credit Movement.

Questions invited, which will be answered by the Grande Prairie Social Credit Group.

ASSUMPTION

Supposing that Mr. W. R. Ball's figures are correct and assuming that Alberta has a semi-temporary surplus of grain of 100,000,000 bushels, that we have paid an average of 33 1/3 cents per gallon white, it could have been sold at Edmont. for 74 1/2 cents per gallon, which would mean a profit of 41 cents per gallon, a production of 270,000,000 gallons per day, and per year of 98,555,000 gallons.

Household production would have to be sufficient to meet several times in one year the gas requirements of the home alone.

Arriving at the hall, which has been remodeled and winters, and would not best make a nursery either for babies or flowers, we found a cheery fire burning with plenty of wood piled high—possibly a provision made should the meeting go into another day.

Council Moves

(Continued from Page One)

A letter from an owner of street equipment was written to the town hall yesterday morning to the town and read. It was decided to learn the price he asked. "It might be practical to go to the Royal Bank," said Mr. Ryley, "and see if we can't bring in equipment from outside points when it is to be done," suggested Councillor Charters.

Moved by Councillor Charters and carried, that the council pay for advertising in the Alberta Monitor Association record and this be paid to the town and the Board of Trade had passed the letter on to the council when they received it this evening.

Such changes as the three-training-week service, landing point in the Yukon flight, and others recommended by the members of the Grande Prairie Municipal Hospital Board requested to make some provision for patients suffering from contagious diseases and that the hospital take such steps as are necessary to provide facilities. Carried.

Moved by Mr. Macklin, seconded by Mr. Holton, that the representatives of the district be asked to make application to the Grande Prairie Municipal Hospital Board to request that we borrow \$2,000 from the Royal Bank and that the forms required by the Royal Bank for this purpose be executed. Carried.

East of the Smoky
Board of DeBolt
United Church
Re-Elected

Mariage Paid—Will Ask for Student Minister Again This Year, Though Annual Meeting Would Have Liked An All-Year-Round Minister.

De Bolt, Feb. 18.— The annual meeting of the DeBolt United Church took place on Monday night, February 14. It was expected that the Rev. W. T. McArthur of Sexsmith would be present on the occasion and hold service and conduct the annual election.

The chairman of the church board, Mr. McFall, took the chair and explained to the members the purpose of the meeting at the home of Commandant G. Tilley on Saturday night last for the purpose of drawing up a set of by-laws for the management of the local branch.

The following are the trustees:

President Wm. Perkins, Comrades Tilley, Gallagher and W. G. Given.

Mr. Perkins presided over the election and W. G. Given was elected.

The chairman then gave an account of the year's work and what had been accomplished. He said he was particularly pleased and he believed that each one would glad to know that the entire debt on the church had been wiped off and they were now free to burn the mortgage, or frame it as one member of the board had suggested.

Mr. H. E. De Bolt, acting on behalf of the church secretary, Mrs. Albert Martin, who was unable to be present, read the financial statement, which showed all accounts paid and a small balance on hand.

This brought the meeting to the order of business, a statement of offerings for the year. It was moved by Mr. George De Bolt and seconded by Mr. Wm. Perkins that the present board be dissolved and another be elected one week later to know that the entire debt on the church had been wiped off and they were now free to burn the mortgage, or frame it as one member of the board had suggested.

Mr. McFall said he was in a position to tell the people that he proposed very well to the church's appeal for help and during his canvass for funds he was well received, and it was that spirit of cooperation which made it possible to clear the debt.

The subject of an ordained minister came up for consideration and the question was considered from all angles but must be postponed until the community would like to have a year-round clear church to take the place of the parsonage so that the necessary funds could be raised.

It was finally decided to ask for a ordained minister this year and Mr. George De Bolt suggested that an effort be made to finish the inside of the church and do some repairs to the outside.

at the same time congratulate Mrs. McFall on the many children removed from the burning house. A home and contents can be restored, but a life never; and the entire community extends sympathy to all practical help.

SEEN AND HEARD

The organist wanted a song book and the organist was directed to a shelf in the manse. "Is there a song book?"

George: "Well, while I'm on the cemetery committee, I'm not the head of the cemetery."

If you should require any better service from the women folk—well have a singer over them."

Mr. D. D. McArthur was in from Sturgeon Lake, and represents the church out there.

LEGION NEWS

De Bolt, Feb. 18.— The newly-appointed temporary trustees of the Legion met at the home of Commandant G. Tilley on Saturday night last for the purpose of drawing up a set of by-laws for the management of the local branch.

CROOKED CREEK

CROOKED CREEK, Feb. 10.—Mr. Bill Chapman has returned home from a trip to the Orient, having been working during the past few months.

The new store has opened up at the home of Mr. K. M. Stevenson, who has a fruit cake will go to the lucky guesser of the weight of cake (tickets ten cents), a cushion to the lucky guesser of the weight of cushion (tickets ten cents) and a carding wool to the lucky guesser of the weight of carding wool.

Miss Chapman served a most enjoyable meal and after the meal the workers were asked to draw straws to see who would win the grand prize.

There were only two sets of cards, the workers took turn and turn again, drawing a pick-up ticket and carding wool.

Spirit River Winter Carnival Was a Great Success

Shirley Kerr Elected Carnival Queen, With Bath Key A Close Second; Event Proved Popular, As Did The Hockey Game. Cooperation Thanks All Those Who Co-operated In Putting The Carnival Across.

SPIRIT RIVER, Feb. 21.—The Spirit River Winter Carnival, held in Spirit River February 17 and 18, proved to be quite a success. The carnival committee, who gave their support in making this, the first Winter Carnival held in Spirit River, a huge success.

The carnival queen contest between Miss Shirley Kerr and Miss Beth Keay was very close. Miss Kerr Keay was chosen as the most popular. The first place was given to Miss Beth Keay, as she had the most votes. The carnival committee wishes to thank all who displayed their sportmanship, and to them we say good work, Shirley; and to Beth, better luck next time. You're a real sport, as is only a real sport can take a loss with such a charming smile as you did.

To the carnival committee, thanks also for their cooperation, and while prizes may not have been what they expected, still we are sure that they will understand why they know that proceeds left over after expenses were paid were not large.

On Thursday afternoon a good attendance was on hand to witness the sledge dog race, ski race, ski-joring and sled hill contests being run off on the main street. While entry's for each of these events was large, still the entries were closely contested. Following these events a老人 hockey game was played at the school rink and a carnival was opened up. This fair was played between the women and men. The fair sex won this game. Following this an ice carnival was held and some very good costumes were seen.

On Friday afternoon a senior hockey game was played on the school rink, the contesting teams being Bridgeview vs. Grande Prairie. The game was won by Grande Prairie. In the evening the carnival hall was held in the Masonic Hall and the Queen of the carnival was crowned. This year the Queen was Miss Beth Keay. Many thanks are due Major Pittson, who drew up the plan for the carnival, which took well with the public. Before the carnival was over the carnival committee wish to thank Mr. Pat Squires and Mr. O. A. Kense for the assistance which they gave to the committee.

Word has been received that Mrs. L. A. White, who some time ago underwent an operation in Grande Prairie, will soon be back with us as she is now on the way back to health.

A large number of visitors left on Monday to take in the Grande Prairie bonspiel. The Spirit River rinks will be led by the following skips: R. H. Armstrong, D. Keay and O. Keene. Best of luck boys, don't forget to bring back the bacon.

The Spirit River teachers gathered to Ryley last Saturday to attend the local meeting of teachers in this district.

Word has been received that Mrs. A. Swanson of Ryecroft recently underwent an operation in the Grande Prairie Municipal Hospital and the writer has been informed that Mrs. Swanson is making a very satisfactory progress.

MR. AND MRS. BOTT GOING TO HYTHE

Spirit River will very shortly lose one of its best known families in the persons of Mr. and Mrs. A. P. Bott and their son, who will take up residence in their residence at Hythe where Mr. Bott will have charge of the N.A.R.P. Bott and Mr. and Mrs. Bott will be soon missed by us as both are uniring in their social and civic activities. Hythe will have real booters in them.

While we are unable to see them go, we wish Mr. and Mrs. Bott and family success and that they will be pleased with their new home, although we always will consider this congenial family as belonging to Spirit River.

PIPESTONE CREEK

A SOCIETY CRUSH

PIPESTONE CREEK, Feb. 19.—Many distinguished people attended the birthday party of Miss Helen, wife of Mr. and Mrs. Duncan Bain, on Saturday evening last. The gathering, which might be described as a "society crush," proved cards, dancing and all the old song units well, some hardy got home that night at all, others during the next afternoon.

LUMBERJACKS ON PARADE

In the absence of Arthur, who is expected back from hospital very soon, Harold Kowalski has commenced logging operations with his crew. The first's prime lumber limits on the cutbanks of Pipestone Creek. This famous creek will be used as a road to haul the logs to the mill located near the ferry.

HATS OFF TO THE CHURCH

This fine young form of the church, well-known throughout Grande Prairie, Father Giroux, on a trip across the West last fall, was able to investigate the conditions under which old Indian people live and found the Indian Department a thorn in the flesh and by employing a threatening attitude was able to force the Indian Department to double his monetary ration, which previously stood at \$37.00 per month.

The Indian Department, headed by such famous names as Mackenzie, under the unfortunate delusion that Indians were not fit to be provided with the necessities of life, provided the Indians with only rice and beans, and in addition to this the Indians had only a few cents to buy meat.

The Indian Department, however, is doing a good work.

To the Indians, however, than also for their cooperation, and while prizes may not have been what they expected, still we are sure that they will understand why they know that proceeds left over after expenses were paid were not large.
